TRANSFORMING COMPANY CULTURE

Many business leaders believe that it's not possible to have a company culture that's both healthy and high performing. The truth is they can have both, and the former drives the latter.

Robert Glazer teaches business leaders to build a world class employee culture, offering them model for attracting and retaining the right people.

As a speaker, he demonstrates the five critical elements of great culture and how they can be applied to any organization. With his guidance, audience members learn to develop a strong culture supported by continuous feedback and psychological safety. This in turn leads to improved performance and employee engagement.
